Facility Size

8 Acres

Future Residential Recycled Waste Processing Facility

- Investing \$20mm in a state-of-the-art single stream processing facility for Broward County
- Capacity of 500 TPD
- Plan to utilize **electric** heavy equipment
- AI enabled optical sorting
- Projected opening Q1 2026

Additional Planned Infrastructure

- **Investing ~\$20M+** to build a state-of-the-art Single Stream Processing Facility in Pompano Beach
- **Recently invested ~\$9M** to build a state-of-the-art C&D Material Recovery Facility in Hobe Sound
- **Investing ~\$10M** to build a state of art C&D Material Recovery Facility in Vero Beach
- **Investing ~\$10M** to build a state of art C&D Material Recovery Facility in Fort Myers
- **Investing ~\$8M** to build a state of art Commercial Material Recovery Facility in Fort Myers
- **Investing ~\$30M** to build CNG Infrastructure in Pompano Beach to convert existing diesel fleet
- **Invested ~\$2M** into sustainable EV waste & recycling equipment

Closing the Loop – Product End Markets

Coastal’s MRF business model predominantly driven by gate rates on inbound volumes, disposal cost avoidance, and sale of recovered materials to an extensive network of outlets, provides a sustainable business model.

Extensive Network for Outbound Materials

- **What barriers do you anticipate in expanding or aligning services across jurisdictions?**
- **What policies or system features would make implementation more feasible?**
- **What role do you believe SWABC should play in program oversight or facility certification?**
