Follow Up Flag: Follow up
Flag Status: Flagged

Good Afternoon

The city of Deerfield Beach is the sole hauler for both commercial and residential trash, bulk waste, and C&D. Our main concerns regarding the Potential C&D Recycling Ordinance and Program are as follows:

An increase in operational costs, for both hauling and disposal, will affect the demand for more collection trucks, which in turn correlates with a rise in staffing. When a new stream is added at the curbside or construction sites, it will result in more trucks on the road. Furthermore, disposal trip times will likely double or triple because we will need to send our C&D, bulk veg, etc., much farther outside city limits. The last thing we want is to pass these increased costs on to our residents and businesses.

Regards,

ELEONEL LORENZO

Subject: TAC Meeting Follow-Up

Good morning TAC Members:

Thank you all for the feedback and discussion during Monday's TAC meeting. As discussed, the TAC has been tasked to evaluate implementation and operational considerations related to the proposed C&D Recycling Ordinance and Program. This program presents an important opportunity to achieve a significant countywide impact, and your evaluation and input are critical to its success.

I am requesting that formal comments on the C&D Recycling Ordinance and Program be submitted by **January 6, 2026**. I will compile the comments and incorporate the identified concerns into the agenda materials for the **January 12, 2026 City Commission meeting**. This will allow the entire

TAC to review the discussion points in advance and prepare for a productive discussion at the **January 12, 2026 TAC meeting**.

Please submit your comments directly to me or to Todd Storti no later than January 6, 2026. I look forward to working with all of you on this important initiative.

Thank you,

Mark S. Lubelski, P.E.
